

# Reading for Vocabulary Introduction Video

## **TEACHER**

Hi! And welcome to the introduction video for the Reading for Vocabulary strategy!

The Reading for Vocabulary strategy shows you how to use text-to-speech to read words you may not know.

This strategy can be used when:

- You are reading on a computer
- You don't know all the words
- And you want to hear the word out loud

This strategy has three steps:

- Select it
- Hear it
- Say it

Using this strategy can help you with pronunciation, and with recognizing unfamiliar words.

Watch the next video to learn how to use the Reading for Vocabulary strategy!

Have fun!
